ABOUT US

Discoveri Oaks International School is a progressive, contemporary and independent school, which has delivered an exceptional education to students for more than a Quinquennial. Since its establishment, Discoveri Oaks has played a critical role in empowering individuals through a well-rounded education.

Discoveri Oaks International laid its cornerstone in the year 2015 where a group of like-minded people came together believing that all children inherently love to learn. Learning for children is a discovery of the self and a yearning to share that discovery with peers, teachers and parents can create positive development in children.

True education begins with knowing & understanding the child hence at Discoveri Oaks both the child and the adult are learners and together they weave a world of sharing, discovering and constructing new hopes and new vistas.

Built on the foundation of trust, love and joy, Discoveri Oaks is committed to providing much more than just mere transmission of information and skills acquired through compartmentalised syllabi.

It is with this search in mind that the core team of Discoveri Oaks has come together to establish the best international school that would understand the children and help them discover themselves.
